Zen Apache Knife Basic Training

"Know yourself, there is nothing else to seek"

Zen Apache is a martial art developed from the traditional Philippine Kali, and Miquon lineages.

The knife is used as a metaphor for life and by applying the discipline of the Balisong Knife you may bypass the mind, and have a direct experience of the Self.

Martial Arts can be used to look at yourself in a conscious way on all levels, thereby creating a more positive life expression. You then become an ordinary person doing extraordinary things in the world.

The soul grows with responsibility and action. This is how we know the Self, through action, not thought.

The various areas covered in this training are:

- Manipulation of Balisong
- The following Simple Seminars (Raps)
 1. Commitment
 2. Multi-Level Self
 3. Martial Arts Rap
 4. The Universal Teacher
 5. P.S.P. (Precision, Speed, Power)

The balance for this training is \$110,00 both in a one on one or a workshop format. This training takes 4 to 5 audio taped sessions to complete.

The butterfly knife is provided for the class.

All my work is done with the highest integrity and utmost excellence. You'll be completely satisfied with the results from the techniques I give you, or receive your money back with no questions asked.

Zen Apache Knife Advanced Training

The Advanced Z.A.K. is a schematic to "ground out" the principles and wisdoms of the High Self through the physical discipline of Z.A.K. This course makes manifest (with the student's effort, of course), the beginning stages of "DATU" consciousness. A DATU is one whose High Self is incarnate on the physical plane.

This training includes but is not limited to the following areas:

- Martial Arts (Balisong Knife, Kali Stick Fighting, empty hands work).
- Contemplation Technique (develops inner sight).
- Assist Counseling (how not to pick up karma when counseling others).
- Possible connection to Ancient Tone designed to expand awareness and provide protection.
- The DATU Principles and Wisdoms (how the High Self perceives and acts in the world). There are approximately 20 of these seminar raps.

The DATU Wisdoms are given as homework to experience in a practical way throughout the day and then to contemplate and "lock" further into the individual's consciousness. The result of this is a gradual attunement to the High Self with the student experiencing the High Self overshadowing him/her as a consistent part of everyday consciousness in the world.

The balance for the Z.A.K. Advanced work is \$800.00 and can take up to six months to complete. If you wish to do only the DATU inner work, the balance is the same. The training is only done on a one on one basis.

All my work is done with the highest integrity and utmost excellence. You'll be completely satisfied with the results from the techniques I give you, or receive your money back with no questions asked.

AURA BALANCING

This simple yet powerful process strengthens, clarifies and heals the electromagnetic fields of the body. These fields are found to interpenetrate and surround the human body. These Aura's are our fields of consciousness; as they are healed and balanced, so also is our conscious clarified and healed.

We have three Auric fields: the physical, emotional, and mental-spiritual. Within this one aura balancing session all three auras are completely balanced. The aura then takes a full seventy-two hours to lock in this new energy field,

This technique is one of (painless surgery done in the aura) the individual lies relaxed on the table while the balancer then lifts all three auras off the body (they are still connected just suspended above the body) this gives the balancer an easier access to the healing and sealing of any damage found in the energy field. The balancer utilizes a pendulum to focus radiant energies of pure healing light into the aura; and locates and clears the following disturbances.

- Any tears, rips or leaks, which create an energy drain, and could lower one's vitality. Anyone with this type of damage is more open and vulnerable to negative thoughts, feelings and energies. This damage is usually a result of taking drugs, psychic attack, physical surgery, severe or chronic illness or severe depression.
- Energy Blocks: When energy stagnates, disease can occur. These blocks are cleared with a re-establishment of energy flow.
- Centers or (CHAKRAS) that are spinning negatively. I find that most people who come to me have spiritual centers spinning negatively (Counter clockwise). This may be due to many shocks, hurts and misunderstandings within life's experiences. When centers are spinning counter clockwise it is easier to tune into negativity and experience negative thoughts and feelings. The balancer works on each of the major centers until they all spin in a positive field of action. Thus enabling the individual to more easily experience his or her strength, love, and light consciousness.
- Negative thought forms. Negative thinking and feeling develops negative thought forms which then can readily block vital energy to the centers of our consciousness.

-continued-

AURA BALANCING

We then cannot fully function for limited energy flows in and out of our vital centers. This causes symptoms such as physical illness, lowered energy, depression and confused thinking.

The balancer works to break up and release these essence-draining thought forms.

When the balancer sees all the centers spinning positively. The auras are then reconnected to the physical body and then sealed in seven colors of light. This light will strengthen and heal continuously on many levels.

It then takes seventy-two hours to "lock" in this light of the newly cleansed energy field. So I ask for that time that you refrain from any sexual expression, any recreational drugs or alcohol intake. Your Aura Balance can last a lifetime. Please do your best from this point on to keep it balanced.

YOUR AURA balancer is a skilled healer with special gifts that enable he or she to perceive and work clearly with the High Self of the client as well as with the extremely subtle and complex energies of the Aura.

The total cost of your Aura Balance is \$250.00. This service can take up to five hours to complete. See note.

NOTE: As with all my work the Aura Balance is done with the utmost integrity, and inspired excellence. You will be completely satisfied with your results or receive your money back with no questions asked. GUARANTEED.

BASIC SELF WORKSHOP

When the soul enters into the Earth plane, it receives assistance and guidance through two prominent agents of energy, the High Self and the Basic Self (or lower self). The High Self nature is a somewhat more familiar concept today, and known through various books and workshops.

However, the workings and consciousness of the Basic Self are rarely known and understood, yet the Basic Self is perhaps our best friend and ally, truly a "Master Healer" on every level, and can give more gifts to the incarnating soul than even the High Self, under most circumstances.

This workshop provides the opportunity to receive the many gifts from the Basic Self, become introduced to your "best friend," and be connected for the rest of this life.

Some areas covered in this workshop are:

- What is the Basic Self? Where does it come from? What is its job? The nature of its consciousness?
- Healing techniques using the Basic Self.
- The psychic nature of the Basic Self and how to channel higher energies using its open channels to Spirit.
- The hierarchy of the three selves (High Self, Conscious Self, Basic Self).
- The Basic Self and its relationship to psychic phenomena, extraterrestrials (E.T.s), angels, suicide, self sabotage, possession and physical/mental illness.
- Ritual habits of the Basic Self.
- The role of the Basic Self in times of crisis, danger, spiritual enlightenment, death and decision making.
- The healing and education of the Basic Self.
- Techniques for direct communication with any and all Basic Selves.
- The Basic Self and changing habit patterns (addictions, compulsion, negative/destructive habit patterns).
- The Basic Self and out-of-body travel.
- History's Basic Self "Hall of Fame."
- The Mystery Schools and other teachings on the Basic Self.
- "Missionary" Basic Selves (you and your Basic Self to the rescue.)

Most imbalances on any level usually involve a rebellious Basic Self. This workshop is just what the "Doctor Teacher" ordered for anyone in the fields of health and healing. This workshop can take up to 6 hours to complete.

The balance rendered for this workshop is \$125.

All my work is done with the highest integrity and utmost excellence. You will be completely satisfied with the results from the techniques I give you, or receive your money back with no questions asked.

Kala

Kala is the ancient Kahuna practice meaning to Purify

These powerful techniques are as old as the earth itself, and they work primarily with the Basic, Conscious, and Higher Self to clear negative energies that are attached to the individual by AKA cords.

These energies or thought forms are usually found to be toxic to the individual, and can lead to debris and blockage in the auric field and centers (or chakras) in the body.

These toxic blocks can affect our positive daily expression in an unconscious way leading to the accumulation of negative karma.

Some of the areas covered are:

- Working with the Basic Self to clear toxic thought forms.
- Identifying the past karma and how to work with it in the present.
- Tapping higher energies for use in clearing all the areas of disease.

This work is not for everyone. A short phone interview is done before anyone can receive this service. The time allotted for this work is 2 hours and is audio taped for the client.

The balance for this service is \$60.00 for both workshop setting and one on one or previously taped seminar.

All my work is done with the highest integrity and utmost excellence. You'll be completely satisfied with the results from the techniques I give you, or receive your money back with no questions asked.

A CLAIRVOYANT PERSPECTIVE ON RELATIONSHIPS

Relationships!?! The final frontier??

We humans, being highly refined, well tuned, electrical creatures do send and receive energy to each other on a consistent basis. We do this throughout our life on a conscious and unconscious level. We use imaginative thought forms to convey this energy.

When we co-create with each other in relationships (karma) whether it be personal, business or casual we reflect the courage, love and fear necessary to bring us into the now. This newness allows us to work together to move us beyond the world of opposites.

Come get a fresh perspective of your relationship to yourself in retrospect to others.

This seminar will include (but not limited to) these topics:

- The Basic Self in Relationships
- The High Self in Relationships
- Positive and Negative Karma
- AKA chords and their connections
- The Centers (Chakras) and their roles in Relationships
- Simple Rules to Relate by

As with all my work, I offer an unconditional money back guarantee (no questions asked) if you are not satisfied with the results.

The next seminar will be held at _____ on _____
